---

### **Product Description:**

A Conductivity Pen is a must for plating managers, lab technicians, waste management operators and regulators. Its convenience encourages frequent checks of rinse tanks, boiler condensate, and many other applications which can often ward off more serious and costly malfunctions before they happen. The Conductivity Pen easily fits in a shirt pocket. Quick single point calibration is all that is necessary. Four replaceable LR44 NiCad batteries are included providing a life expectancy of 200 hours.

### **Product Specifications:**

Model 560-0187 Range: 10 to 1990  $\mu$ S  
Model 560-0188 Range: 0.1 to 19.9 mS  
Model 560-0189 Range: 1 to 199  $\mu$ S  
Model 560-0190 Range: 10 to 1990 ppm  
Accuracy: +/- 2%  
Temp. compensation: Automatic 5 to 55°C  
Adjustment: Trimmer  
Dimensions: 6" Long X 5/8" Thick X 1 1/4 Wide  
Weight: 2 Oz.
