## Future 5000 pH Recorder Model 580-0500

*Accurately records full pH range (0-14 pH) with rotation speeds of either 24 hours or 7 days.*

### **Benefits:**

- ◆ Easy to install on wall or in panel
- ◆ Factory set up for any Systematics pH controller and many others
- ◆ Corrosion-resistant cabinet
- ◆ Box of 100 pH charts included
- ◆ Charts easily viewed and stored for environmental record-keeping

### **Product Description:**

The Model 580-0500 Future 5000 circular chart recorder is sold as a companion to Systematics pH Controllers. It records over the entire pH range of 0-14 pH and can be set for 24 hours or 7 days in a single rotation.

Charts are sold in boxes of 100 each and are very easy to store for environmental record-keeping. Existing Systematics pH controllers can be modified at the factory to provide a compatible recorder output.

This circular chart recorder was specifically designed for use in temperature/humidity environments, therefore it is rugged and dependable.
